Inter-Institutional Program of PostGraduate Studies

"Theoretical and Applied Geopolitical Analysis in International Relations and Strategy"

Special regulation for the implementation of e-learning

Athens, 2024

All courses of Inter-Institutional Program of Graduate Studies “Theoretical and Applied Geopolitical Analysis in International Relations and Strategy” are carried out in person.

Internal Regulation of Operation

ARTICLE 7. DISTANCE EDUCATION

The organization of the educational process of the Inter-Institutional Program of Graduate Studies “Theoretical and Applied Geopolitical Analysis in International Relations and Strategy” will be implemented with conventional classroom teaching.

The educational process can be carried out using modern distance education methods, even in Postgraduate programs which have not included this possibility in their establishment decision, exclusively in the following cases:

- in force majeure or extraordinary circumstances, where it is not possible to carry out the educational process or to use the infrastructures of NKUA to carry out educational, research and other activities,

- organization of in-depth courses and tutorials, in addition to the mandatory hours of teaching work per course.

Responsible for the support of the distance education process, as well as for issues related to the protection of personal data, is the Digital Governance Unit of NKUA.

NKUA maintains an electronic platform accessible to people with disabilities, through which asynchronous distance education services are provided. On the electronic platform, educational material may be posted per course, which may include notes, presentations, exercises, indicative solutions thereof, as well as videotaped lectures, as long as the current legislation on personal data protection is respected.

Educational materials of all kinds are provided exclusively for the educational use of students and are protected by Law 2121/1993 (A' 25), as long as the relevant conditions are met.
